

# THE CORRECT WAY TO ACCESS MODEL OBJECT PROPERTIES

## PlaceTableViewController.m

```
- (UITableViewCell *)tableView:(UITableView *)tableView  
    cellForRowAtIndexPath:(NSIndexPath *)indexPath {  
  
    UITableViewCell *cell = [tableView dequeueReusableCellWithIdentifier:@"pCell"];  
  
    if(cell == nil) {  
        cell = [[UITableViewCell alloc] initWithStyle:UITableViewCellStyleDefault  
                                           reuseIdentifier:@"pCell"];  
    }  
  
    cell.textLabel.text = [self.places[indexPath.row] name];  
  
    return cell;  
}
```

Correct syntax using message passing
