

with *Swift*

Level 1

Xcode and Storyboards

Section 2 - Storyboards and Subviews

Our First Goal: A Product Information Screen

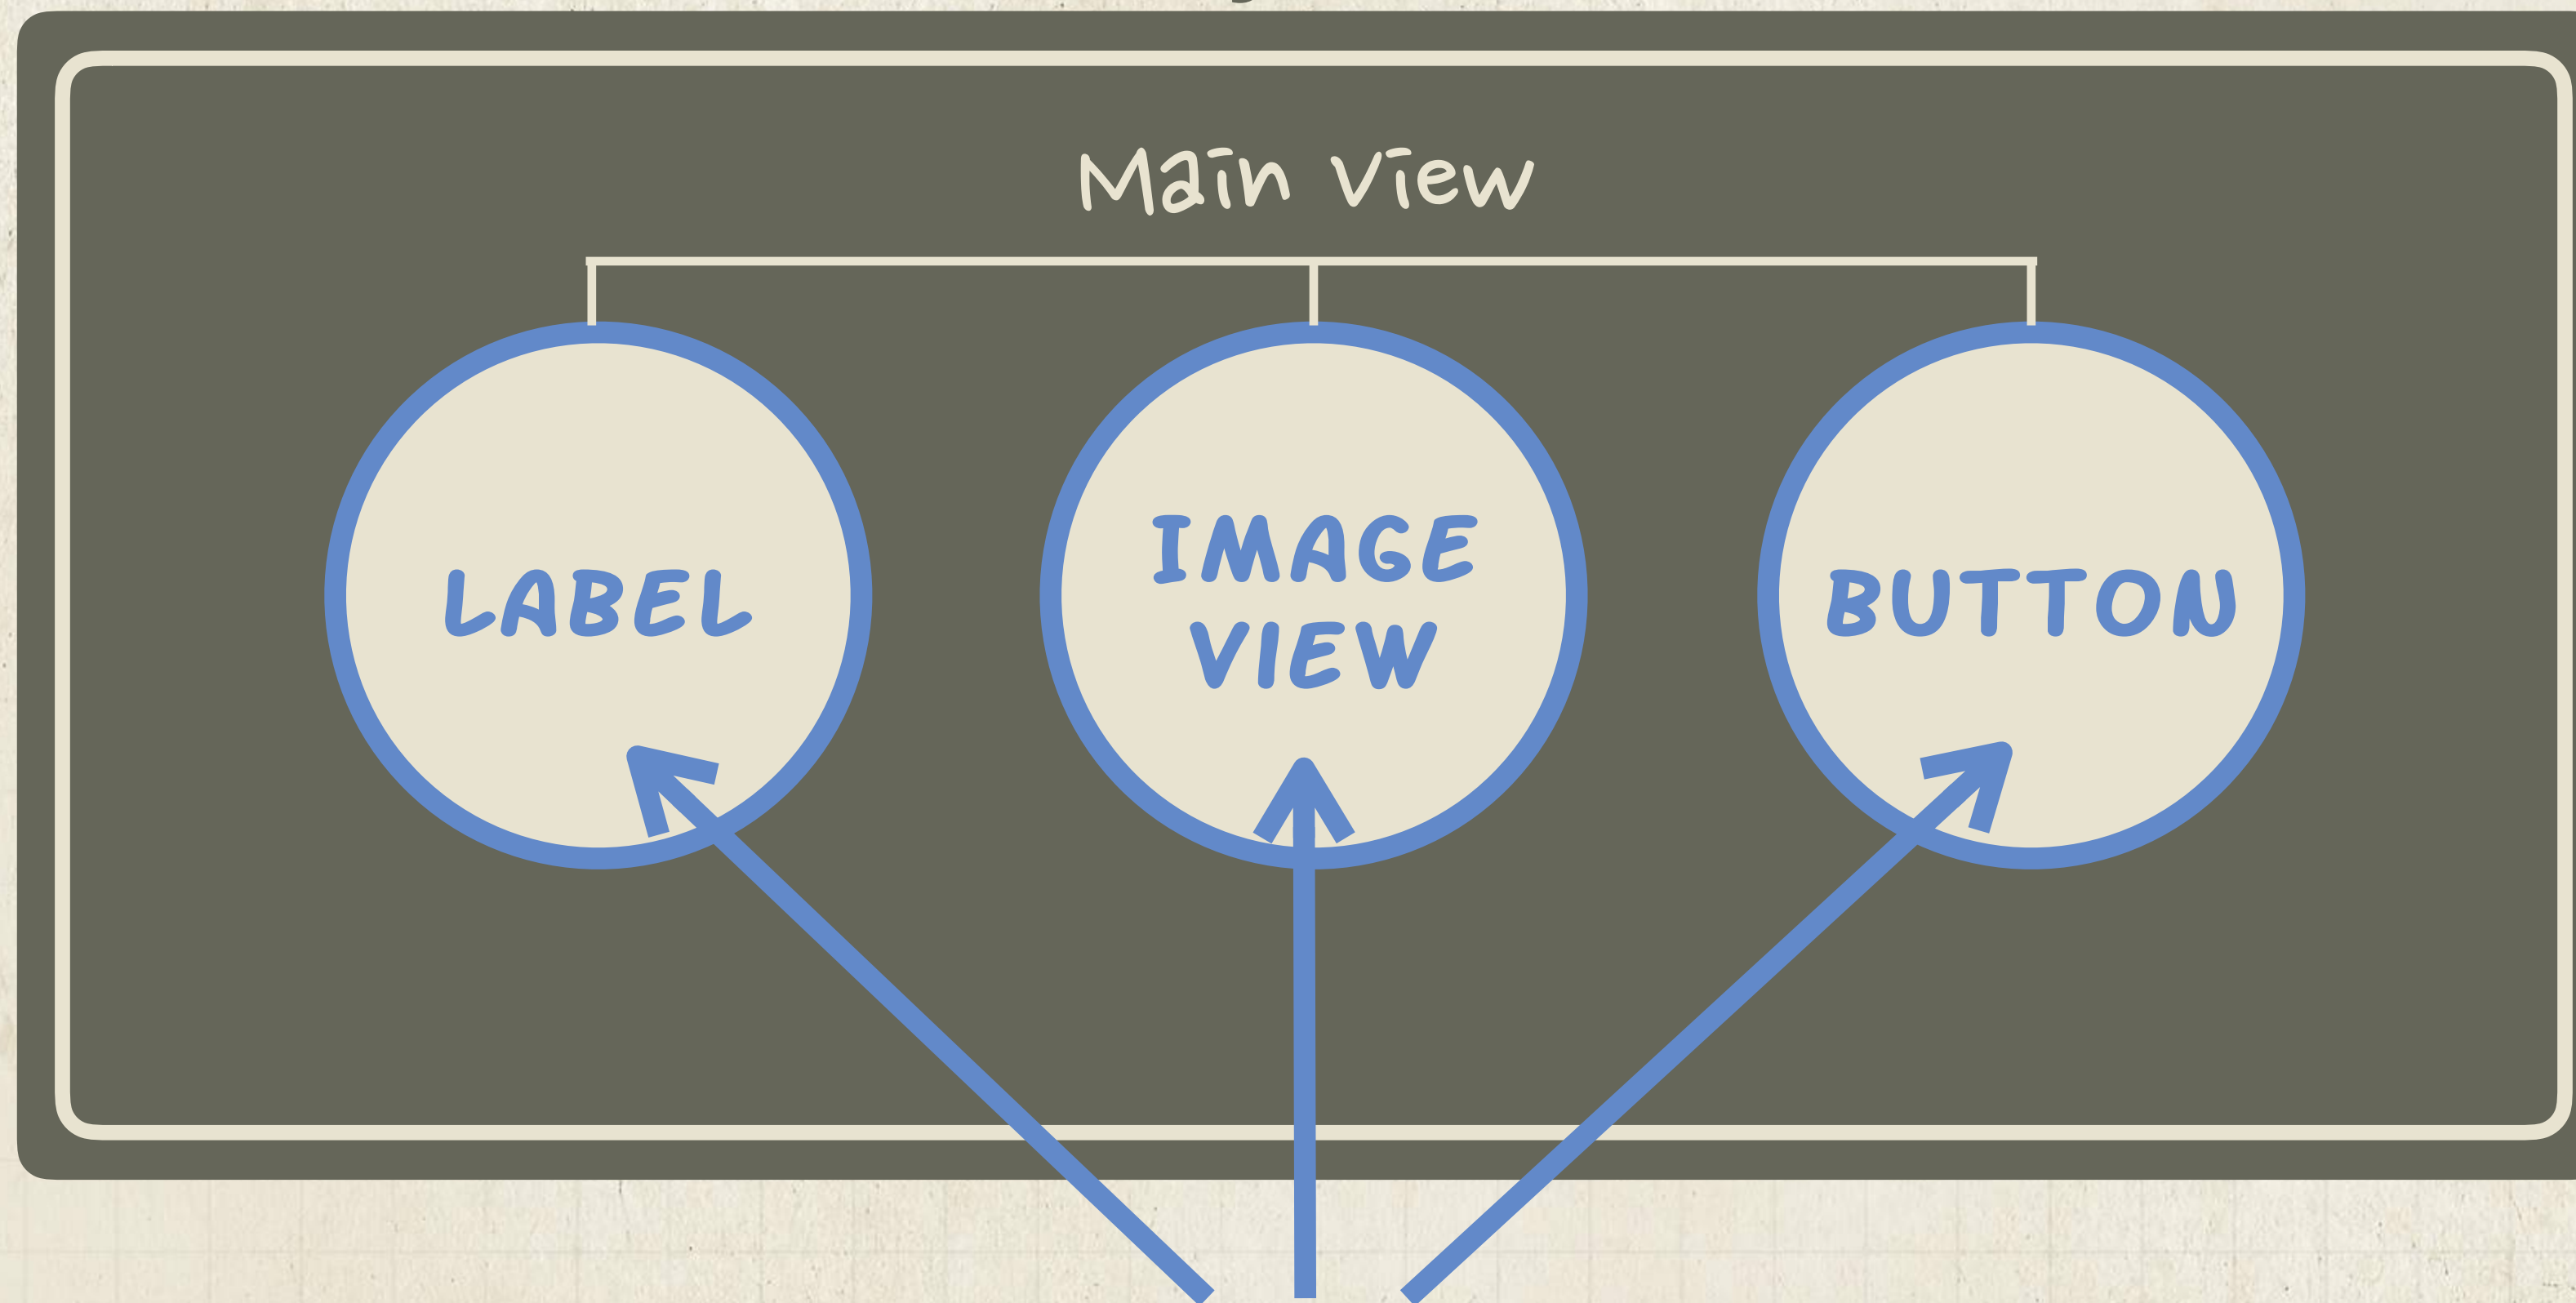

Screencast: Linking a Swift File to the Storyboard

Adding Subviews to the Main View

Let's add a label, image, and button to the main view.

Storyboard

These are called subviews

Screencast: Displaying and Styling a Label

Screencast: Importing and Displaying an Image

Screencast: Displaying and Styling a Button
