

TESTING INITWITHJSON

CityViewController.h

```
#import "City.h"
@property (strong, nonatomic) City *city;
```

CityViewController.m

```
self.city = [[City alloc] initWithJSON];
NSLog(@"state is: %@", self.city.state);           nil
NSLog(@"population is is: %d", self.city.population); nil
```

WHAT IN THE NIL IS GOING ON?
