## CityViewController.m

```
- (void)viewDidLoad {  
    [[NSNotificationCenter defaultCenter]  
        addObserver:self  
        selector:@selector(enteringBackground)  
        name:UIApplicationDidEnterBackgroundNotification  
        object:nil];  
}  
  
- (void)enteringBackground {  
    [City saveCity:self.city];  
}
```

DON'T FORGET TO RE-CREATE THE  
MODEL WHEN THE APP OPENS AGAIN!
