

# OPENING EDITNOTEVC AS A MODAL VIEW

## CityViewController.m

```
- (void)editPressed {  
    EditNoteViewController *editNoteVC = [[EditNoteViewController alloc] init];  
    editNoteVC.city = self.city;  
    [self presentViewController:editNoteVC animated:YES completion:nil];  
}
```

# MAKING A MODAL VIEW GO AWAY

## EditNoteViewController.m

```
- (void)savePressed {  
    self.city.notes = self.notesField.text;  
    [self dismissViewControllerAnimated:YES completion:nil];  
}
```
