

PUSH A PLACE MODEL INSTANCE WHEN A CELL IS TAPPED

PlaceTableViewController.m

```
- (void) tableView:(UITableView *)tableView
  didSelectRowAtIndexPath:(NSIndexPath *)indexPath {

    [tableView deselectRowAtIndexPath:indexPath animated:YES];

    PlaceViewController *placeVC = [PlaceViewController alloc] init];
    placeVC.place = self.places[indexPath.row];

    [self.navigationController pushViewController:placeVC animated:YES];
}
```

PlaceTableViewController Cell

Place Model instance passed when cell is tapped

PlaceViewController
