## MKAnnotation object with callout bubble

## **MyAnnotation.h**

```
#import <Foundation/Foundation.h>
#import <MapKit/MapKit.h>
@interface MyAnnotation : NSObject <MKAnnotation>
@property CLLocationCoordinate2D coordinate;
@property (weak, nonatomic) NSString *title;
@property (weak, nonatomic) NSString *subtitle;
@end
```

MyAnnotation.m (not changed)
