ADOPTING THE NSCODING PROTOCOL

City.h

```objc
@interface City : NSObject <NSCoding>
```

City.m

```objc
#import "City.h"

- (id)init ...

- (id)initWithJSON ...

- (City *)initWithCoder:(NSCoder *)aDecoder {

}

- (void)encodeWithCoder:(NSCoder *)anEncoder {

}
@end
```

must now implement **initWithCoder:** *and* **encodeWithCoder:**

initWithCoder: *should return an instance of the Model*

iOS
OPERATION:
MODELS
